Our mission

We aim at developing social innovative entrepreneurship sense in young entrepreneurs to answer proactively to problems of their society.

The sense of initiative and entrepreneurship is an essential transversal skill identified by the European Union both to create jobs in the future and in building resilient societies.

The idea of the project is to create a training program to support teachers in increasing the relevance and attainment levels of pupils studying entrepreneurship with a focus on providing solutions for pressing societal challenges and aiming at greater social impact.

Our target

The project partners will support young entrepreneurs and teachers via the following key activities:

- A competence guide** A **social entrepreneurship guide** will be established, based on a research on social entrepreneurs eco-system to produce a pedagogical framework and curriculum structure model for teachers.
- A e-learning platform** Aimed at students and teachers, the **e-learning platform** will facilitate and accommodate the DESIRE social entrepreneurship training course.
- A Social Entrepreneurship training course** The **core purpose of the project** is to create a training course on social entrepreneurship. The methodology behind the creation of the training course will be based on real feedback received on actual entrepreneurs and teachers, as well as tools with proven usefulness such as Digicomp and Entrecomp.
- A pilot training** The **piloting phase** will include 20 pupils from each partners' country and will be essential to finalize the training contents of the course.
